English

ABOUT ME

Innovative UI/UX Designer with a passion for creating user-friendly and visually engaging digital experiences. Proficient in Figma, and front-end tools,with a strong foundation in user-centered design. An ICT undergraduate eager tobring creative ideas to life.

PROJECT

- **Lab an Lecture Hall reservation systemt-Figma**
  A user-friendly UI design for easy lab and lecture hall reservations

- **E- Channelling Mobile app-Figma**
  user-friendly, simple, and easy UI design for the electronic channelling mobile app

- **Medical center management system – MERN Stack**
  In our group project for the faculty medical center, I designed the UI and contributed to the front end. The system allows students to view medical histories, and doctors and nurses manage treatments and medications.,

- **Currency Converter – MERN Stack**
  A Currency Converter built using MERN stack, allowing users to easily convert between different currencies with real-time exchange rates.
